

Exact ordinary proof degrees for the D_pi calibration

Static NS: Q/Fp. PC: Q/Fp through 30; Fp only at 32,34,36. p=1000000007.

Static NS: 26 points (N=10..60), Q/Fp
PC: 11 points (N=10..30), Q/Fp
PC extension: 3 points (N=32,34,36), Fp only; no Q inference

Ordinary total degrees; lines connect measured values only. No asymptotic PC claim.
